

For over 20 years, Tree Hut has made body care that transforms your everyday and elevates you to sensorial places with spa-like results.

High-quality, natural ingredients like Certified Shea Butter, natural sugar and exotic oils nourish and reveal your best skin. Our extensive range of fragrances transform your senses to help you unwind from a busy week or jump start your day. Either way you choose to escape everyday, we know that you will have the best spa experience in the comfort of your own home.

Why exfoliate?

Proper routine exfoliation eliminates the barrier of dead skin that occurs naturally overtime. By renewing the surface of the skin, you purify it to help reveal brighter, smoother, more youthful-looking skin. After you exfoliate, your body wash and moisturizer will have deeper penetration to properly balance skin and leave it looking and feeling its best.
